**March Program Schedule**

***Here Comes the Sun***

One of the true signs that the long winter is winding down is the ritual of the changing of the clocks. The story of the how and why of Daylight Savings Time is a fascinating one with humans trying to save and control sunlight and the controversy that goes with it.

*Saturday – March 7<sup>th</sup> – 2pm*

***Superstitious Nature***

Do you dare go out on Friday the 13th???

Do so and you will discover the natural roots of our superstitions. Traveling into the realms of our ancient worlds, the reasons for some of our quirkiest beliefs are deep and sometimes vague but our belief in greater powers that need to be appeased is universal.

Do you feel lucky tonight?

*Friday the 13<sup>th</sup> – 7pm*

***Spring Equinox Astronomy Sky Theatre***

Our quarterly sky search will take us through the Equinox Spring Sky, the constellations, the planets and a special lecture presentation on the science and culture of the Sun.

*Friday - March 20<sup>th</sup> – 7pm*

*All programs are FREE. The Visitors Museum is open everyday from 10am to 5pm. Information: 663-6312.*
